A Workplace Toolkit

We're with you all the way...

This "*A Workplace Toolkit Checklist*" has been designed to allow an easy allotment of time for this project. Our aim is to make this as accessible and as useful as possible to you. We understand your time restrictions and respect your priorities. So with that in mind we offer this Checklist. This can be done for 15 minutes a day two or three times a week. However, it is up to you how you distribute it and what time you allot it.

This Toolkit has been formulated so that you may use it to your convenience. Our website and resources have been made with you in mind. We encourage you to make it your own, but please do keep us in mind by providing us your feedback. We will post your experiences on our website with the goal of making this useful and insightful not only to us but also for others who will use the Toolkit in the future.

Our presentations and workshops are a great way to get you started on the right foot and get you motivated to continue on. We will aim to contact you in three month's time in order to provide further information and assistance with your endeavor.

We hope you find this Toolkit as useful and insightful as we hope it to be. This is information that is important for all workplaces.

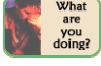

Whether you're a small business or a big one, unionized or not, *Make it your Business!*
